

DENTAL PRACTICE

The dental industry faces a complex balance of clinical excellence and risk management. Whether you're a new graduate, practice owner, or running a dental service organization (DSO) you will encounter liabilities unique to your circumstances. Understanding these challenges and adopting proactive strategies are key to ensuring your future.

The Risk Strategies Dental Practice has over 30 years of experience advising professionals in the dental industry. We are known for collaborating with individuals and businesses to design comprehensive insurance and risk management programs.

INDUSTRY INSIGHT

Our Dental Practice will build an insurance program that supports your financial goals and protects your wealth and assets. We understand the unique risks that dentists face at every point in their careers, and we educate clients on different insurance solutions, for:

- Claims-made and occurrence policies
- Covering your practice from malpractice claims
- Purchasing an existing dental practice
- Building a new dental practice
- Coverage for any stage stage of your career

SOLUTIONS & CAPABILITIES

Our dedicated team specialize in finding the following policies for our clients:

- Professional Liability (Malpractice)
- Entity Professional Liability (Malpractice)
- Business Overhead Expense Disability
- Business Owner's Policy
- Workers' Compensation
- Data Breach and Cyber Liability
- Employment Practices Liability
- Commercial AutoGroup
- Voluntary Employee Benefits
- Fidelity/ERISA Bond
- Flood/Earthquake
