

Comprehensive Trucking Insurance

Tailored Insurance Coverage for Your Trucking Operations

Is your business road ready? Long haul or short, trucking operators face many evolving business, risk and liability challenges. From vehicle liability, cargo damage and theft, to regulatory compliance and worker injuries, Risk Strategies deep experience and expertise delivers effective **short-haul** and **long-haul** trucking insurance solutions.

A Long View of Long Haul

The long haul takes a toll: on driver recruiting and retention, equipment, fuel costs and more. Highway speed incidents have serious consequences. DOT regulations, Hours of Service rules, Electronic Logging Devices, and compliance requirements add complexity to managing operations and risk.

Risk Strategies experts have decades of experience helping long haul companies, including large fleet operators, better analyze and manage their total cost of risk and liability. As one of the largest specialty brokers in North America, we deliver effective custom coverage as well as specialized loss control and claims handling services that keep costs down and rates predictable.

Short Haul, not Short-Sighted

Risk Strategies Transportation experts understand the dynamic nature of short haul operations as well as the nuances of the risks. Our broad access to insurance markets makes it simple to craft a custom program that covers your unique needs.

When a problem does occur, our responsive, dedicated approach to service means you get fast, effective resolution. One unit or a dozen, we're in the cab with you every mile.

Protect Your Business with Comprehensive Policies

Risk Strategies business-first approach to risk and liability minimizes potential disruptions and safeguards your operations. Our insurance offerings include:

Owner operator coverages:

- Non-Trucking Liability
- Occupational Accident
- Owner Operator Physical Damage
