

CONSTRUCTION PRACTICE

Our Specialty? Reducing Your Risk

The construction industry is rapidly changing and evolving. Whether working in commercial or residential construction, owners/developers, contractors, subcontractors, and architects and engineers, are facing any number of risks that can have a drastic impact on the bottom line. Fire, water damage, labor shortages, worker's compensation claims, and environmental factors place a heavy burden on the industry, making the need for a top-notch risk management team an ever-growing necessity.

Industry Insight

Risk Strategies' Construction Practice provides a full suite of products and services that help you manage your risk and cover your assets and workers before, during, and after building projects. Our team of professionals will guide you in selecting smart and cost-effective solutions that cover a variety of risks, including:

- Risk transfer from contractor to subcontractors
- Exposure to risk and administrator burden
- Short and long-term environmental impacts
- Rising worker's compensation claims and prioritization of worksite safety
- Ongoing issues with Completed Operations and Construction Defect claims
- Continuing difficulties in automobile liability
- Complicated and ever-evolving insurance market

Solutions and Capabilities

Our team has the experience and agility to customize a program that best fits the needs of your business and unique projects. Following a comprehensive review of your current policies, procedures, protocols and programs, we'll make sure that ongoing and potential risks are discovered and covered. Whether you need strategic counsel on professional safety or to implement general liability measures, we're ready to help manage your risk and prepare for the unexpected. We provide:

- **Comprehensive safety services in all components of safety**
