

Are you Cyber Resolute?

The largest multi-national corporations can afford to be resolute in their defense against the ever changing threat landscape. With Risk Strategies Cyber Resolute businesses of all sizes and budgets can gain a better understanding of their cyber risk profile, improve deficiencies, and get comprehensive insurance coverage.

resolute

• adjective •

- 1 firmly resolved or determined; set in purpose or opinion
- 2 characterized by firmness and determination, as to temper, spirit, actions, etc.

Who is eligible?

- Companies with under \$250M in annual revenues interested in better understanding their organization's cyber risk profile
- Businesses looking to buy comprehensive cyber risk coverage and access to expert vendors to provide proactive risk management and incident response services

What you get

- Risk Strategies Cyber Risk Assessment powered by Arceo.AI
- Optional scan of security settings in commonly deployed cloud services such as Microsoft Office 365 or the Google product suite
- Market leading, comprehensive Cyber insurance with the full suite of coverages to address investigative and response costs as well as potential liabilities. Limits available up to \$5M.
- Up to a 10% return premium, with a maximum return premium of \$10,000, to improve identified vulnerabilities
- Access to expert incident response vendors to minimize the cost, complexity, and reputational impact of data security incidents
