Rising prices for some rare books make them a target for thieves who quickly sell them online

Mar 22, 2018

Pittsburgh Post-Gazette

“Awareness of rare books as having a high value has increased, not the actual value of the books themselves. The book market, like the antiques market, is actually depreciating as the buyers are aging out,” said Margaret Bussiere, vice president at DeWitt Stern Group, an insurance brokerage and risk management firm in New York City.
